Humasis COVID-19 Ag Test – The reactivity with the omicron variant

As a leading company in the IVD field, Humasis is dedicated to supporting healthcare providers. As a part of the response to the COVID-19 pandemic, Humasis is continually observing occurring mutation.

The following products can detect the omicron variants. We conducted the variants test in various sites, a head-to-head comparison of SARS-CoV-2 Omicron variant positive clinical samples and recombinant antigens using the COVID-19 IVD RT-PCR Kit against the following products.

The above statement is true for the below products.

	Omicron Variants	Products
1	BA.4	Humasis COVID-19 Ag Test Celltrion Diatrust COVID-19 Ag Test
2	BA.5	Humasis COVID-19 Ag Home Test Celltrion Diatrust COVID-19 Ag Home Test
